ABOUT THE CONFERENCE

The NCCSS 2017: National Conference on Condensed Matter Physics & Space Sciences aims to bring together leading academic scientists, researchers and research scholars to exchange and share their experiences and research results on all aspects of Condensed Matter Physics & Space Sciences. It also provides a premier interdisciplinary platform for researchers, practitioners and educators to present and discuss the most recent innovations, trends, and concerns as well as practical challenges encountered and solutions adopted in the fields of Condensed Matter Physics & Space Sciences.

VISION

Conference exists to unite, strengthen and inspire the leading academic scientists, researchers, research scholars and young minds to exchange and share their experiences and research results on all aspects of Condensed Matter Physics, Space Sciences. The conference will provide a unique integrated platform of workplace health and well being in a professional and scientific arena ideal for hearing the latest science and viewpoints of research development activity.

MISSION

- ★ To attract research scholars and students across the nation, and to contribute vigorously to their education and recent development in the field of research as responsible global citizens, future leaders of society, and leading practitioners of the basic sciences.
- ★ To offer advanced basic science and to incorporate the best pedagogical methods in its delivery during the period of conference.
- ★ To provide authors, research scholars, students with exceptional research and professional experience opportunities, support and guide them in their extracurricular pursuits, and challenge them to be proactive learners, deep thinkers and responsible citizens.
