Acknowledgement

"Laptop Purchase Shop Application" is the project of many hands from the team. Our tribute for the successful completion of the project goes to all those who helped through their constant guidance and encouragement. The satisfaction that accompanies the success would be incomplete without thanking the person who made it.

I am thankful to our beloved Principal Dr.KAMALA Y.C, who encourages me to come with new and innovative ideas and for providing the environment with all facilities for completing the project.

I am also grateful to our Head of the Department Prof. SHALINI.C Department of computer science for her valuable guidance and constant support during our project development.

I am also grateful to our project guide Prof. VARADARAJ.R, Department of computer science for his valuable guidance and constant support during our project development.

I extend my thanks to all my teaching staffs of the department of computer science. Finally, I thank one and all who helped me directly and indirectly for the completion of our project.

Abstract

The purpose of Laptop Purchase Shop is an application which is used to help the users in purchasing through ethereum blockchain. So that the data/transaction of both parties will be safe and secured through the ethereum blockchain.The main reason to build this application based on ethereum project is to focus on safe transaction , because breaking/hacking a block is highly impossible as comparred to other application there fore ethereum blockchain plays crucial role in laptop purchase shop. In this project we are dealing with the buying of laptops using the metamask and linking it with ganache network.
