## Department of Chemistry

### Report on Awareness Program

An awareness program on food adulteration was organised by the Department of Chemistry in association with the Food Safety and Standards Authority of India dated on 6/1/2023. Mr. Mallikarjun, faculty of FSSAI demonstrated various types of adulteration in food by simple experiments to the students of various schools and colleges who visited our campus for science in action program. More than hundred students participated in this program.
