MEMORANDUM OF UNDERSTANDING

between

The National College-Autonomous

and

Florida International University

This Memorandum of Understanding («MOU») is entered into on the 9th day of May, 2016 (the "Effective Date," which shall be the date this MOU is fully executed) , by and between the The National College-Autonomous, (hereafter referred to as "NCA") located in Basavanagudi, Bangalore, India, and The Florida International University Board of Trustees, on behalf of the College of Engineering and Computing ("CEC") at Florida International University (hereafter referred to as "FIU"), a member of the State University System of the State of Florida; FIU is located in Miami, Florida, United States of America ("USA"). NCA and FIU agree to explore the possibility of developing the highest quality programs to advance the needs of NCA and FIU. NCA and FIU are hereafter collectively referred to as the "Parties".

18th day of Dec 2018

Introduction

In order to facilitate the implementation of specific activities of educational cooperation and research, as well as develop contacts between academic staff and students from both institutions, FIU and NCA will examine collaborative avenues of opportunities. To realize this goal, both FIU and NCA recognize the following commonalities:

1. The compatibility of the direction and interest of their teaching and research;
2. The significant roles they each play as leaders in higher education, teaching and research within their respective countries; and
3. The knowledge and exchange with appropriate industries for product development and patent recognition.

Exploration of Collaboration

FIU and NCA aspire to sign an MOU as a way to develop a collaborative relationship based on the following:

- The possibility of research collaboration in specific areas identified by both Parties. The proposed plan under consideration involves assistance in guiding research projects, faculty and scholar exchange, and publication of research papers that culminate from collaborative research projects.
- The exploration of faculty visits to instruct in subjects identified by NCA and FIU. (Refer to Appendix A for more information.)
- The Parties will consider developing a collaboration to enable students from NCA and FIU to enroll in online courses or attend courses from each other's institution and acquire suitable credits towards their degree programs (*subject to transfer credit policies of each Party*).
- The possibility of planning and coordinating international conferences, seminars and symposia will be examined.
- The Parties will also consider the feasibility of publishing and editing electronic and printed documents that they have generated. The option to facilitate the exchange of information and academic materials in areas of mutual interest is subject to the US Export Administration Regulations (see below for the citation).
- Online certificate-based learning cooperation will also be explored, including models to deploy such learning.

Via the individuals listed below, the Parties will encourage contact and cooperation among their faculty members and departmental units. Both Parties agree to actively seek sponsorship from various local, national and international funding sources in support of such collaborative educational activities.

This MOU serves as an institutional framework for collaborative activities. Specific agreements would need to be drafted by the Parties in the case that the exploration of these areas leads to further developments. These agreements would need to be approved by authorities at each institution. *Nothing in this MOU shall be construed as creating any legal relationship between the Parties.*

This MOU is subject to the Constitution and laws of the USA and of the State of Florida and the regulations of the Florida Board of Governors and The Florida International University Board of Trustees. In particular, all the provisions of this MOU and any agreement to be derived therefrom must adhere to the requirements of Part 736 of the Export Control Administration regulations accessible through <http://ecfr.gpoaccess.gov>, and as they may be amended in the future. The Public Records Law applies to all aspects of this MOU.

Both Parties understand that financial arrangements under this MOU would have to be negotiated and would depend on specific activities and the availability of funds. Any expense incurred by either Party would be subject to individual agreements on a case-by-case basis. The Parties also recognize that intellectual property terms would need to be included in subsequent agreements, as appropriate. In addition, anyone teaching at FIU from NCA must have the approved credentials; FIU is accredited by the **Southern Association of Colleges**

and Schools Commission on Colleges ("SACSCOC") and its faculty qualification guidelines represent commonly accepted good practice for the academic qualifications of faculty. Appendix A identifies the faculty qualifications required by FIU.

This MOU is non-exclusive and would become effective on the date of its final signing. The MOU could be renewed every three (3) years upon the mutual consent of the Parties. The MOU would be reviewed in one-and-a-half (~~1.9~~^{1.5}) years to assess results.

This MOU may be amended or further developed by means of written consent on the part of the signatories or their designated representatives. The MOU may be terminated with at least 90 days' advance written notice. Notices must be sent to the individuals and addresses indicated below:

For the National College:

Dr. Shireen Nedungadi
Principal
The National College-Autonomous
Pampa Mahakavi Road,
Basavanagudi,
Bangalore - 560 004
India

For FIU:

Ranu Jung, Ph.D., Fellow AIMBE
Dean, College of Engineering and
Computing
Florida International University
10555 West Flagler Street, EC2477
Miami, FL 33174,
USA

The Parties stipulate that the use of their respective brands, represented by their headings and logotypes, could only be used by a Party with the previous and express authorization of the other Party. This MOU does not authorize any one of the Parties to express him/herself on behalf of the other, either verbally or in writing.

This space has been intentionally left blank.

Appendix A

Qualified Faculty Requirements

The institution employs competent faculty members qualified to accomplish the mission and goals of the institution. When determining acceptable qualifications of its faculty, the institution gives primary consideration to the highest earned degree in the discipline.

The institution also considers competence, effectiveness, and capacity, including, as appropriate, undergraduate and graduate degrees, related work experience in the field, professional licensure and certifications, honors and awards, continuous documented excellence in teaching, or other demonstrated competencies and achievements that contribute to effective teaching and student learning outcomes.

Florida International University uses the following as credential guidelines when it defines faculty qualifications using faculty credentials:

Faculty teaching general education courses at the undergraduate level: doctorate or master's degree in the teaching discipline or master's degree with a concentration in the teaching discipline (a minimum of 18 graduate semester hours in the teaching discipline).

- Faculty teaching baccalaureate courses: doctorate or master's degree in the teaching discipline or master's degree with a concentration in the teaching discipline (a minimum of 18 graduate semester hours in the teaching discipline).
- Faculty teaching graduate and post-baccalaureate course work: earned doctorate/terminal degree in the teaching discipline or a related discipline
- Graduate teaching assistants: master's in the teaching discipline or 18 graduate semester hours in the teaching discipline, direct supervision by a faculty member experienced in the teaching discipline, regular in-service training, and planned and periodic evaluations.

As a Carnegie Research University with High Research Activity (RU/H), Florida International University additionally credentials its faculty based on national/international juried research productivity within the discipline. The institution documents a faculty member's research contributions to the discipline as evidence of the faculty qualifications.

In extremely limited circumstances a faculty member may be credentialed based on a combination of educational experience, productivity in the discipline and work experience. In these situations the practical experience in the discipline must be at an executive level with a broad scope of national/international reach.

The individuals below sign this MOU on behalf of their respective Parties and represent and warrant that they have the requisite authority to bind their respective institutions:

The National College Autonomous:

The Florida International University
Board of Trustees:

Dr. Shireen-Nedungadi
Principal

Date: 06.07.2016

Elizabeth M. Bejar, Ph.D.

Date: 06/07/2016

1. PURPOSE

The National college, Jayanagar Bangalore and R.V College of Engineering, Bengaluru believe that the quality of education and research is strengthened by establishment of co-operation links and wish to enter into academic research collaboration with a view to their mutual enrichment in scientific, academic and engineering areas.

2. OBJECTIVES

The general objective of this memorandum of understanding is:

- To foster the interaction between The National College, Jayanagar, Bangalore and R.V. College of Engineering, Bengaluru in the areas of mutual interest to enhance the value of research and training at both places by undertaking collaborative research projects.
- Joint publications/Patents and to enhance the quality of human resource by imparting training.
- Further both the institutions agree to establish long term research collaboration, skill based training programs, Faculty development programs, exchange programs in the fields those are compatible with the orientation of each institution and are relevant to the industrial, scientific and engineering interests and needs of the country.

The initial focus shall be in the areas of Physics, other areas of co-operation may develop at a later time.

3. MANNER OF IMPLEMENTATION

The collaboration contemplated by the MoU will be implemented by:

- a. The exchange of researchers
- b. The exchange of scholarly and pedagogical materials
- c. The coordination of collaborative research programs

For the purpose of this MoU, "researchers means the following"

- a. Faculty members
- b. Doctoral/postdoctoral fellows
- c. Undergraduate/postgraduate students participating in the exchange for the purpose of research and other training programs for a period of six months or one year as applicable.

4. JOINT RESEARCH PROGRAMME

- a. Both parties agree to start discussions in order to start joint research work in the areas of science and technology. These joint collaborative initiatives shall be chaired research coordinators as mentioned in clause 6 below.
- b. The program shall promote the exchange of researchers at the faculty and PhD students' level to pursue joint research projects and publications in the areas of science and technology.

5. EXCHANGE OF RESEARCHERS

- a. The participation of any researcher from either institution in the exchange will be subject to the prior approval of such researcher by the institution.
- b. Each institution undertakes to maintain the salary and supplementary benefits of its own faculty members who participate in the exchange, consistent with its faculty level policies and other policies in effect from time to time.
- c. Participants in the each of the institutions, while in attendance at the other institutions' facilities, shall abide by the rules and regulations of that host institution regarding the use of facilities and conduct, and shall be subject to the policies, rules and regulations of the host institution.

6. RESEARCH PROGRAMME MANAGEMENT

Each institution shall appoint one (or, if appropriate, more than one) academics / research program coordinator to ensure that the academic / research co-operation proceeds according to reasonable plan and to ensure that the purposes, objectives and terms of this MoU are carried out. Each institution may at any time name a successor to, or replacement of, its research program coordinators). The coordinator thus appointed, shall periodically review and identify right of path to strengthen co-operation between the institutions.

For the initial period of MoU the research coordinators will be

- a. Prof. T. Bhuvaneshwara Babu, Dept. of Physics, R.V College of engineering, Bengaluru
- b. Mr. Abhiram. J, Coordinator (In-charge), Department of P.G. Studies & Research in Physics The National College, Jayanagar, Bangalore
- c. Dr. N.G. Pramod, Assistant Professor, Department of P.G. Studies & Research in Physics, The National College, Jayanagar, Bangalore

7. INTELLECTUAL PROPERTY

The National College, Jayanagar, Bangalore, and R.V. College of Engineering Bengaluru agree to respect each other's rights to intellectual property. Further, the intellectual property rights that arise as a result of collaborative research or activity under this MoU will be worked out on case to case basis, and will be consistent with officially laid down IPR policies of the two institutions. Parties agree and confirm that parties shall have copyright and all the intellectual property rights in respect of their own respective products. After prior written consent of the other party, parties can utilize each other's copyright, trademark or design only for the purpose of satisfaction of the objectives of this MoU only during the tenure of this MoU.

Neither party may copy, reproduce, publish, distribute, modify or by any other means any confidential information without the prior written consent of the other party. Any copies or reproductions of the

confidential information shall bear the copyright or propriety notices contained in the original. All the information obtained as a result of entering into or performing this MoU, shall be kept as confidential by both the parties, but shall be bound to be disclosed if needed by law or by judicial and/or statutory authorities. The confidentiality obligations shall survive the termination of this MoU.

a) For the purpose of this section:

i. "Intellectual Property" means, without limitation, any and all know how processes, technologies, software, specifications, drawings, flow charts, sketches, models, samples, technical or business information, inventions, discoveries, techniques, technical information and all related intellectual property rights worldwide arising under any law, and whether or not statutorily protected, including all

- Patents, patent applications and patent rights
- Copyright registration, copyright applications and copyright rights
- Industrial design and industrial design application
- Trademarks, trade marks applications, trade mark registrations and trademark rights
- Rights relating to the protection of confidential information
- Any other property rights relating to intangible property and divisions, continuations, renewals, reissues and extension of any of the above (as and to extent applicable) now existing or hereafter filed, issued or acquired.

ii. "Project" means any of the collaborations including, but not limited to, a training, research or service delivery programme, project or subject area in which the parties collaborate or assist each other as contemplated by this MoU.

iii. Where a provision to the effect that R. V. College of Engineering, Bengaluru owns any Intellectual Property (IP), such provision shall be read to mean R. V. College of Engineering, Bengaluru, or its Scientists, other employees or students that the participants in the project own such IP in accordance with its policies and any applicable collective agreement.

(b) Unless the parties have otherwise agreed in writing with respect to a specific research program project prior to commencement of work on such project:

i. All IP of the parties (and its third party licensors) and existed on the date of the commencement of the Project or that is subsequently created or acquired solely by any such institution in performing the work under the project shall be owned by the institution. The other party shall have a personal, non-exclusive right to use such Intellectual Property provided by the first named institution for the purpose of the project and for internal teaching and research purpose.

ii. Ownership of jointly developed Intellectual Property shall be determined by the participating parties on a project basis, having regard to the nature, quality and extent of the contributions by the respective parties.

iii. Any commercialization of jointly developed intellectual property, including publication or other disclosure, shall be as determined in advance by the respective program coordinators of the contributing parties.

8. DURATION AND AMENDMENT OF AGREEMENT

This MoU shall have in effect the date it is signed by representatives of the two institutions and be in binding upon the parties here to for a period of five years from the date of MoU and may be continued after suitable review and agreement. Each institution respects that it has authority to enter into this

MoU and to support the intended collaborative research initiatives and shall not constitute any agency or partnership or a joint venture. The MoU may only be amended by the mutual consent of all parties in writing.

9. INDEMNITY

R. V. College of Engineering, Bengaluru here agree to indemnify The National College, Jayanagar, Bangalore and keep its officers, employees harmless from and against all claims. Demands losses and damages penalties, expenses and proceedings connected with this MoU or arising from any breach in relation to any such provisions as aforesaid or breach of any terms and conditions of this agreement of otherwise arising from any act, commission, misrepresentations or omissions on R. V. College of Engineering, Bengaluru part, whether willful or not. This shall be in addition to any other remedy that University may have in terms of this agreement or under law of the land. All indemnities given by R. V. College of Engineering, Bengaluru shall survive the expiry or termination of this MoU.

10. EARLY TERMINATION.

This MoU may be terminated at any time upon the written mutual consent of the parties or upon either party giving three months written notice of the termination in advance. Once terminated, neither The National College, Jayanagar, Bangalore nor R. V. College of Engineering, Bengaluru will be responsible for the losses, financial or otherwise, which the other institution may suffer. However, The National College, Jayanagar, Bangalore and R. V. College of Engineering, Bengaluru shall ensure that all activities in progress are allowed to complete successfully.

Each party on termination of this MoU immediately deliver up to the party or its authorized representative all keys, passes, credit or charge cards, confidential information, records and other documents, files, manuals, papers, computer discs, tapes or other software storage media and any other property of whatsoever nature which may be in his/her possession or control and relates in any way to the business and affairs of each party.

11. FREEDOM FROM DISCRIMINATION

Each party acknowledges to the other that it subscribes to a policy of non – discrimination, which requires its employees not to discriminate on the basis of race, sex, sexual orientation, age, ethnicity, religion or national origin. Each party shall abide by these principles in administration of this MoU and neither party shall impose criteria for the exchange of researchers that would violate these principles of non- discrimination.

12. DISPUTES HANDLING AND JURISDICTION

Should there be a dispute relating to any aspect of academic co-operation under this MoU The Principals of The National College, Jayanagar, Bangalore and R. V. College of Engineering, Bengaluru will jointly resolve the dispute in a most amicable and friendly manner in an atmosphere of goodwill in the spirit of independence, mutual respect, and shared responsibility. In the rare and unfortunate instance of any dispute or differences failing to be settled through mutual discussion, the said matter or dispute, differences shall be referred to third party arbitration by a single member panel acceptable to both the parties. The award of the arbitration shall be final or binding on both the parties and arbitration proceedings shall be conducted in English language. The place for proceedings of arbitration shall be at R. V. College of Engineering, Bengaluru.

Subject to the arbitration clause above, any dispute shall be referred to the exclusive jurisdiction of Bengaluru. It is further agreed that the MoU will be made and executed in two copies; both original and one copy each thereof shall be retained by The National College, Jayanagar, Bangalore and R. V. College of Engineering, Bengaluru respectively. In witness, the parties have executed this MoU with effect of this date first written.

NAAC ACCREDITED 'A' GRADE

Memorandum of Understanding

College Name: National College Jayanagar, Bangalore

Date: 31st December 2018

Texas Instruments Innovation Center (A partner of Texas Instruments India University Program)

1. Introduction

India has become a promising investment destination for foreign companies looking to do business here. Our Honorable Prime Minister of India Shri Narendra Modi has launched the '*Make in India*' initiative with the aim to give the Indian economy global recognition. This initiative is expected to spur development, economical growth and thereby improving the living standard of Indian Citizen.

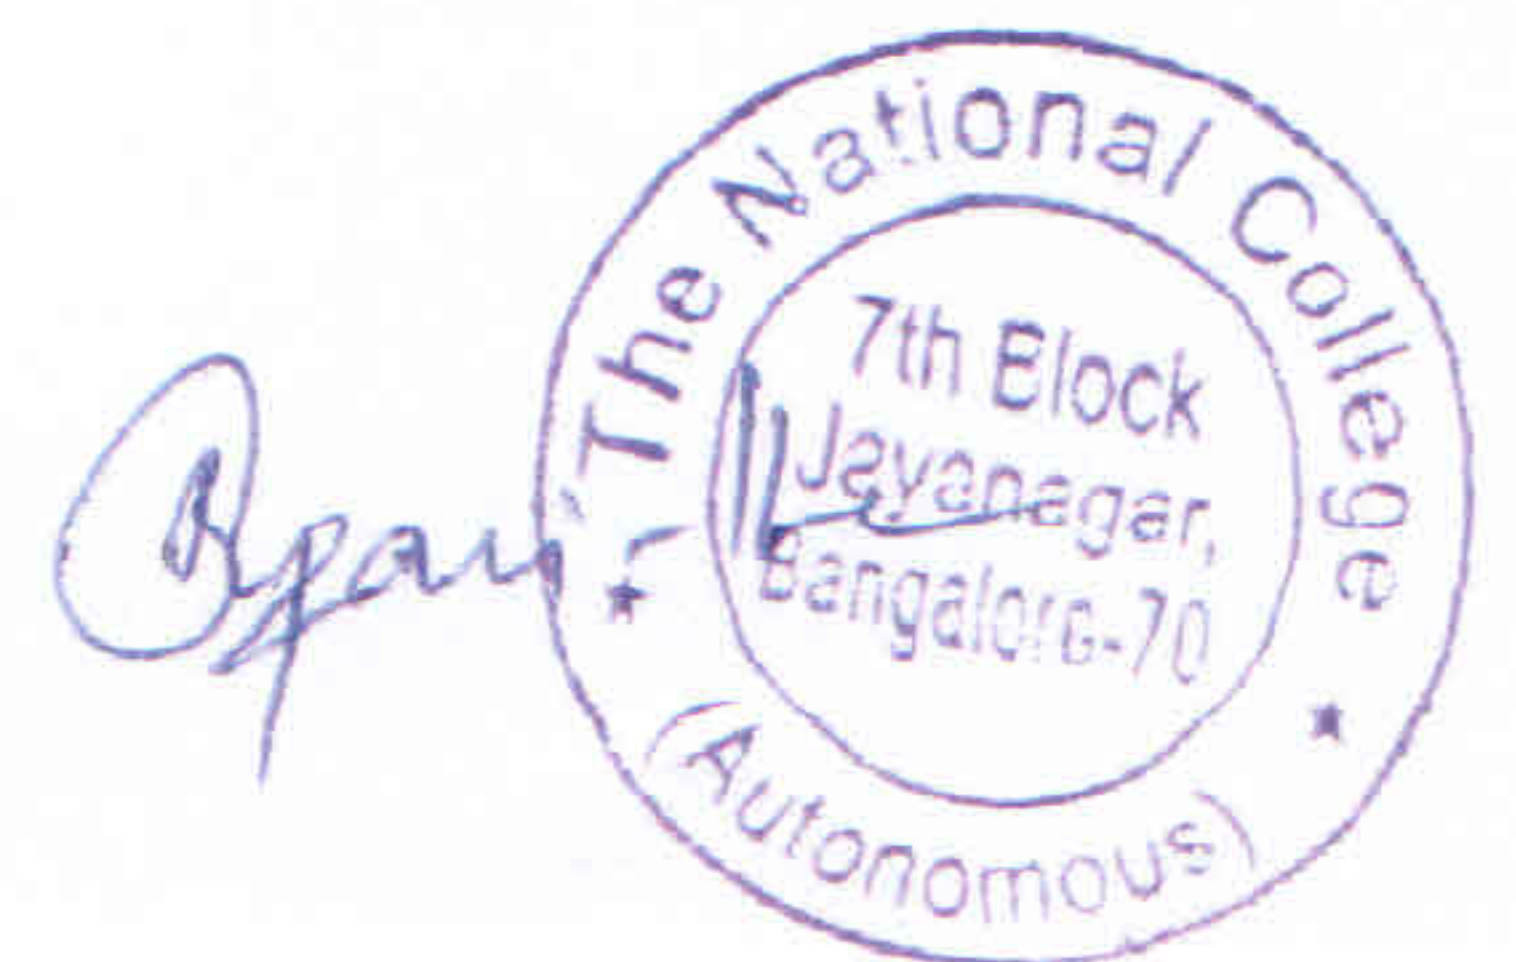

Engineering education has to play very important role in providing huge pool of skilled and knowledgeable, and industry ready engineers. The future success of Indian industry depends on the growth of quality engineering education in India, especially since Indian industry is competing globally in areas such as software and hardware electronics, automobiles, pharmaceutical, chemicals, engineering equipment etc. In India, the brightest students opt for engineering after the 12th standard. This has resulted in a spurt of engineering colleges. However, the reality is that only a very small percentage of these students are readily employable (@25% or less as per the survey by Nasscom) and most lack industry specific skills. In order to bridge this gap between the academia and the industry and to ensure ready deployment in regular work streams, structured industry specific training is necessary.

2. Brief Introduction about National College Jayanagar, Bangalore

The National Degree College, Jayanagar, Bangalore, an autonomous college, is one of the fifteen institutions, being managed by the National Education Society of Karnataka. The Society was established in 1917 with nationalist ideals as the driving force. The College was started in 1965 with a humble strength of 110 in the Pre- University Course and now it has grown into a leading institution of higher learning in General Education. The College has several achievements to its credit in the academic field as well as extracurricular activities.

-1-

The College offers courses in B.A, B.Sc. B.Com and B.C.A. It has well equipped laboratories, a good computerized library and a vast sports field. Opportunities are provided to students to express their talents in Fine Arts and Popular Science.

3. Brief Introduction about EdGate Technologies Private limited

EdGate Technologies Private Limited is Texas Instruments India University Program Partners. EdGate has an extensive presence all over the country and well established connectivity within the academic and corporate communities. Our aim is to reach out to the Corporate, educators and the engineering student community to help them achieve more in their research and their learning initiatives.

Services offered to Universities under Texas Instruments India University Program

- Presales Guidelines
- Sales and Continuous Post Sales support
- Installation and Training
- Train the Trainer Program (Customized)
- Seminar/Workshop (Customized)
- Faculty Development programs (Customized).

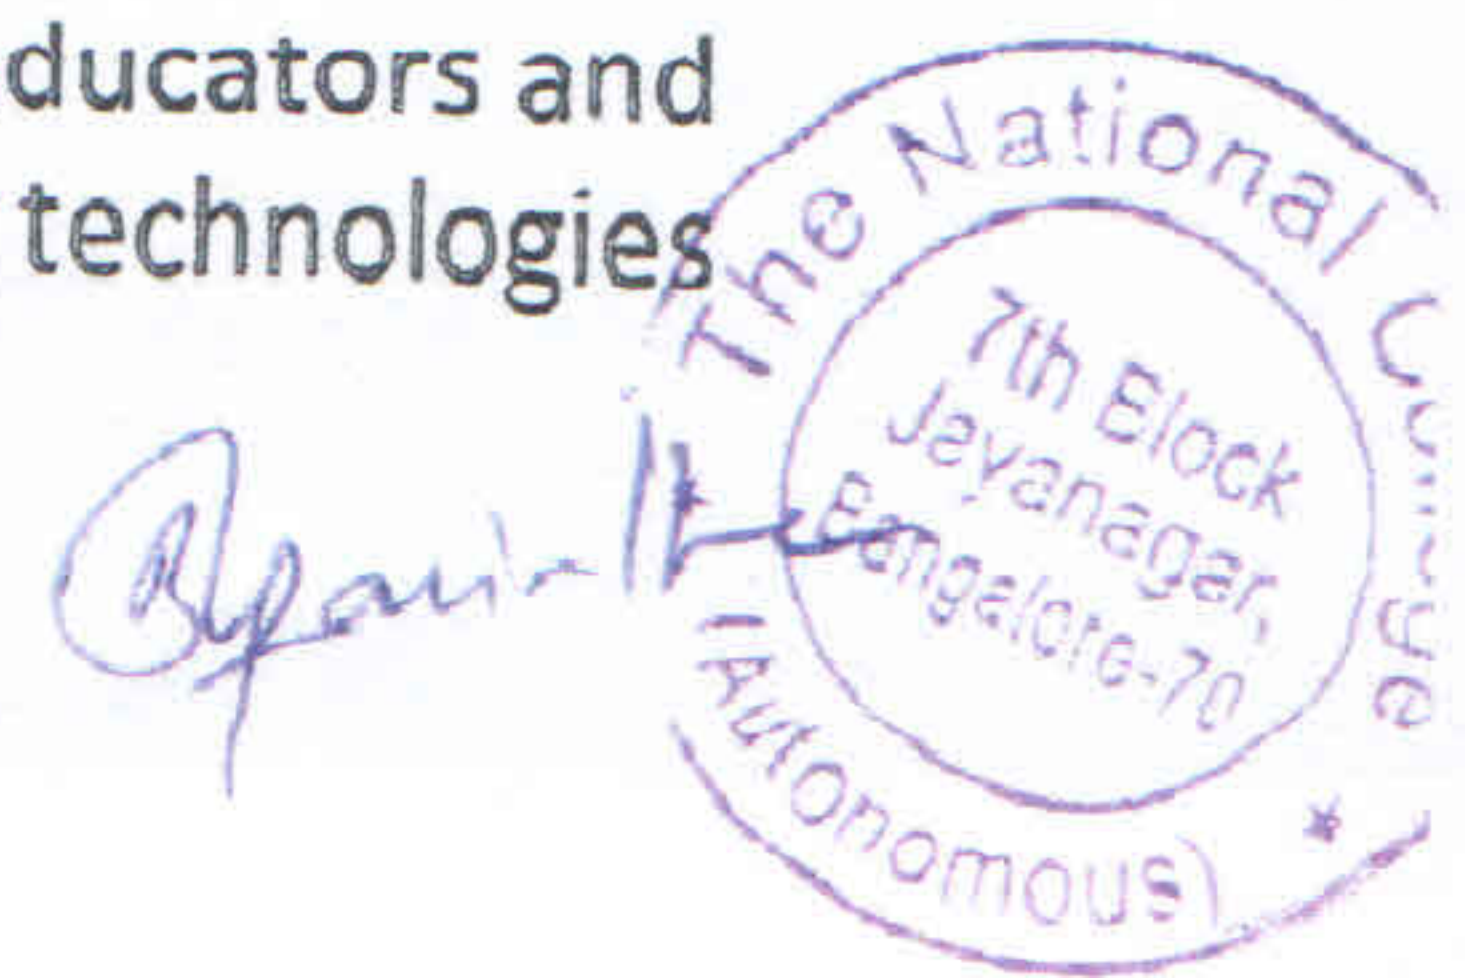

EdGate has setup Texas Instruments Labs in various Engineering colleges across India. EdGate has signed 150 + MOU's and 25 TIIC's with Engineering colleges under Texas Instruments University Program.

EdGate Technologies provide a whole range of services by leveraging its business expertise by strategic alliances with leading technology providers are Sole authorized distributors of following Partners

- Mango Communication, USA : Mango has its roots in the Rice University Wireless Open-Access Research Platform (WARP) project, originally an NSF-funded research
- project that has grown into a self-sustaining open-source wireless research platform.
- SoftDB, Canada (Texas Instruments – Third party developer)
- Technosoftmotion, Switzerland (Texas Instruments – Third party developer)
- Next Dimension Technology, Korea (Texas Instruments – Third party developer) ○ Rowley Associates, United Kingdom
- Embest Technology Co Ltd, China (Texas Instruments – Third party developer)
- Zeeis, China (Texas Instruments – Third party developer)
- Link Research, USA (Texas Instruments – Third party developer)

Texas Instruments University Program

The TI University Program is the intersection between TI technology, educators and the engineers of tomorrow. Our advanced analog and embedded processing technologies

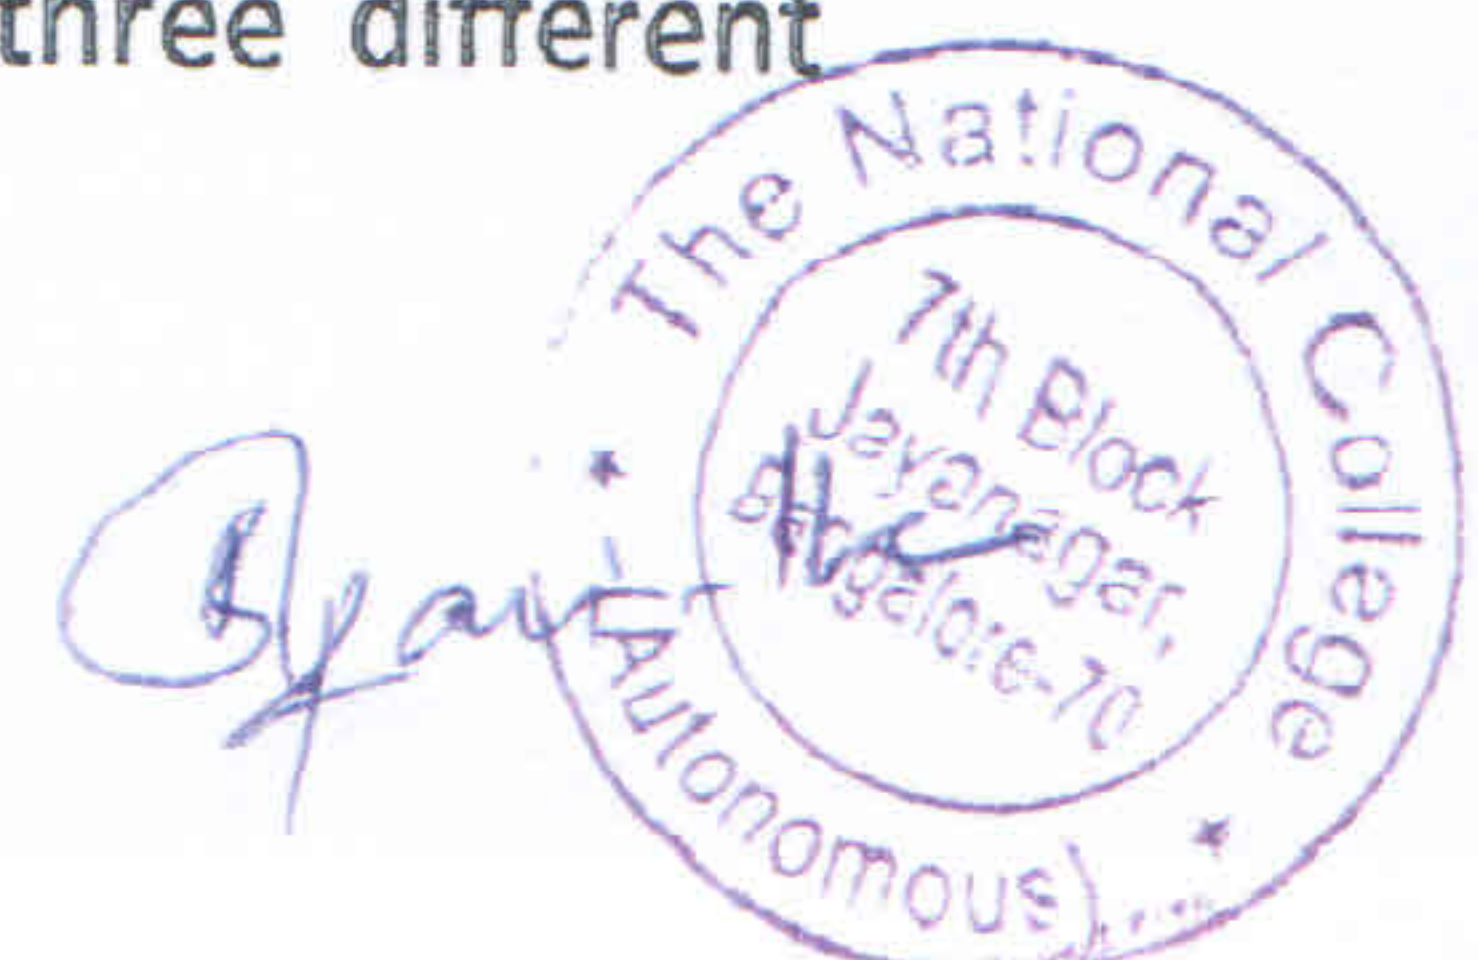

fuel the passions of students and educators in university labs worldwide. Established in 1982, the TI University Program is a global program dedicated to supporting educators, researchers and students in facilitating the inclusion of TI analog and embedded processing in engineering classrooms, teaching and research labs, textbooks, design projects and course curriculum. By building relationships with educators, TI works to bridge the gap between the business and academic world. Incorporating TI technology into curriculum provides educators with the ability to teach real world concepts and complement this with a unique hands-on learning experience utilizing TI tools, making it more exciting, relevant and valuable to the student.

Working with TI increases the knowledge base of future engineers so they interact with industry-standard technology before they graduate. TI helps develop the skills needed to tackle tomorrow's most challenging problems. By providing students access to the largest and most advanced analog and embedded processing portfolio, the TI University Program provides the tools necessary to inspire innovation and take engineering concepts from the book to the breadboard.

1. Contribution and Expectation of EdGate Technologies under Texas Instruments India University Program

As on-ground deliverables, EdGate Technologies will provide the following:

- a) **Curriculum:** EdGate will provide the Curriculum for Texas Instruments Labs. National College Jayanagar, Bangalore should find ways to incorporate curriculum in their syllabus.
- b) **Lab Setup:** The College will set up a lab which will be entitled "Texas Instruments Innovation Lab" at its premises.
- c) **Faculty Development Program:** National College Jayanagar, Bangalore will organize at least one faculty development program in its premise for its faculty members and faculty members of other Indian engineering institutions to teach TI Platform. The College will provide the infrastructure facility for conducting the faculty development program. EdGate Technologies Pvt Limited will help the college in conducting this program.
- d) **Workshops/Events:** If the College wishes to organize a national event in the area of TI Platform, EdGate Technologies Pvt limited will provide speakers.
- e) **Training Programs:** EdGate Technologies Pvt Limited will assist the college in organizing training programs/tutorials on topics related to TI Platform. Faculty members from the college who have undergone train-the-trainer program and who are certified by EdGate Technologies Pvt Limited as trainers may run certified training programs. National College Jayanagar, Bangalore will provide certificates for the participants of such programs. (Valid for 1 year only)
- f) **TI Lab Engagement Program:** EdGate Technologies Pvt. Limited will help the National College Jayanagar, Bangalore to get engaged into the **TI Innovation Center Labs** under this program over a period of 3 months at three different levels i.e., Basic, Intermediate and Advanced.

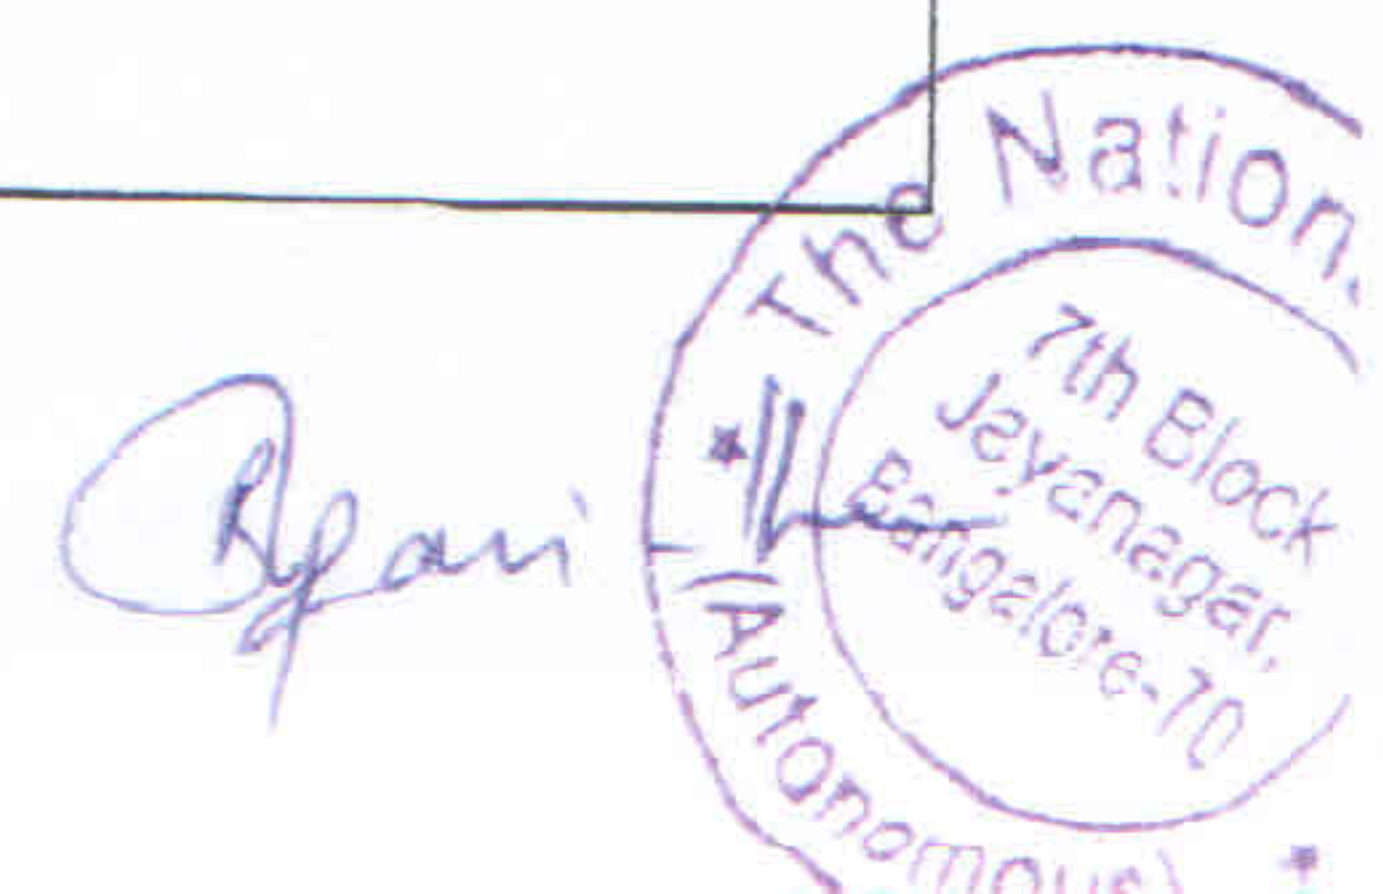

- g) Under TI Lab Engagement Program, National College Jayanagar, Bangalore in association with EdGate Technology Pvt. Limited, may organized and conducts Summer/Winter Training Program for the students from all the nearby engineering institutes along with students from their college by charging moderate fees. EdGate Technologies will provide experts for such program on subsidies charges. EdGate will certify those students.

2. Contribution from National College Jayanagar, Bangalore

Faculty Mentor: Qualified Faculty of Electronics & Communication Engineering, Instrumentation & Control Engineering, Biomedical Instrumentation, Computer Engineering, and Information Technology (preferably with programming knowledge on C; C++) will be made point of contacts and will mentor interested students.

National College Jayanagar, Bangalore should set up lab based on Below:

6	TI Lab Poster and TI Lab Signage(Branding Material)		
Terms and Conditions :			
1.Payment:100% Payment in advance			
2.Warranty: 1 Year			
3.Validity: TIIC Agreement is perpetual and Training agreement is valid for one year only			
4.Taxes : GST 18% Extra			

- Center: Institute will identify and maintain Texas Instruments Innovation Center with at least 10 desktops / laptops on latest home/ office configuration.
- Peripheral components: Institute will make arrangement for other equipment required for setting up the lab and for the maintenance of the lab.
- Financial: Institute will operate the center with the help of existing staff.

National College Jayanagar, Bangalore–Texas Instruments Innovation Center (TIIC)

EdGate Technologies aimed at establishing a collaborative bridge between companies and colleges with the objective of making students in the Engineering Colleges and Schools have a greater hands on experience in technologies related to :-

- a. Ultra Low Power Applications
- b. Embedded System (Real time system Design)
- c. Internet of Things (IOT)
- d. Robotics Lab With Brain Wave Technology

These programs would go a long way to get the students hands on project experience in state of the art Micro-controller boards which are being developed by Texas Instruments. The experience will include hands on software and hardware skills which are highly desired by industry. These projects will provide an experiential appreciation of the latest technologies giving the students significant edge across multiple dimensions like, knowledge, enhanced employability, project experience, etc.

National College Jayanagar, Bangalore-TIIC will bring in the following core values:-

Colleges:

- Ultra Low power Microcontroller Lab
- Internet of Things technology is based on the traditional Internet technology, development and extension, due to its extremely wide range of applications, involving almost all walks of life, and therefore in order to meet the needs of industry professionals, a growing number of colleges and universities applied for Internet of Things engineering professional, in teaching programs arranged in Internet of Things technology courses.
- Strong Branding and ability to attract better quality students
- Better ranking amongst the competition

Students:

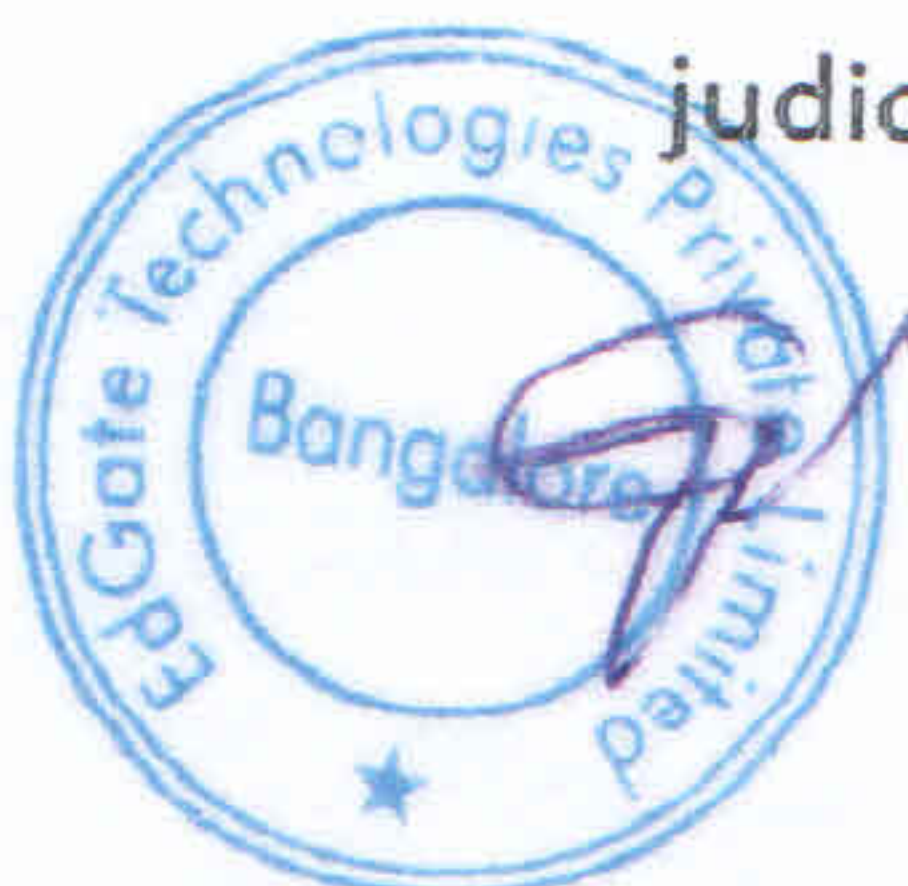

- Exposure to state of the art technologies through hands on learning experience
- Better employability opportunities
- Showcase talent and innovation
- Participating in Texas Instruments Innovation Challenge.(If Texas Instruments conducts any contest centre will be connected with the same)

Vision forward:

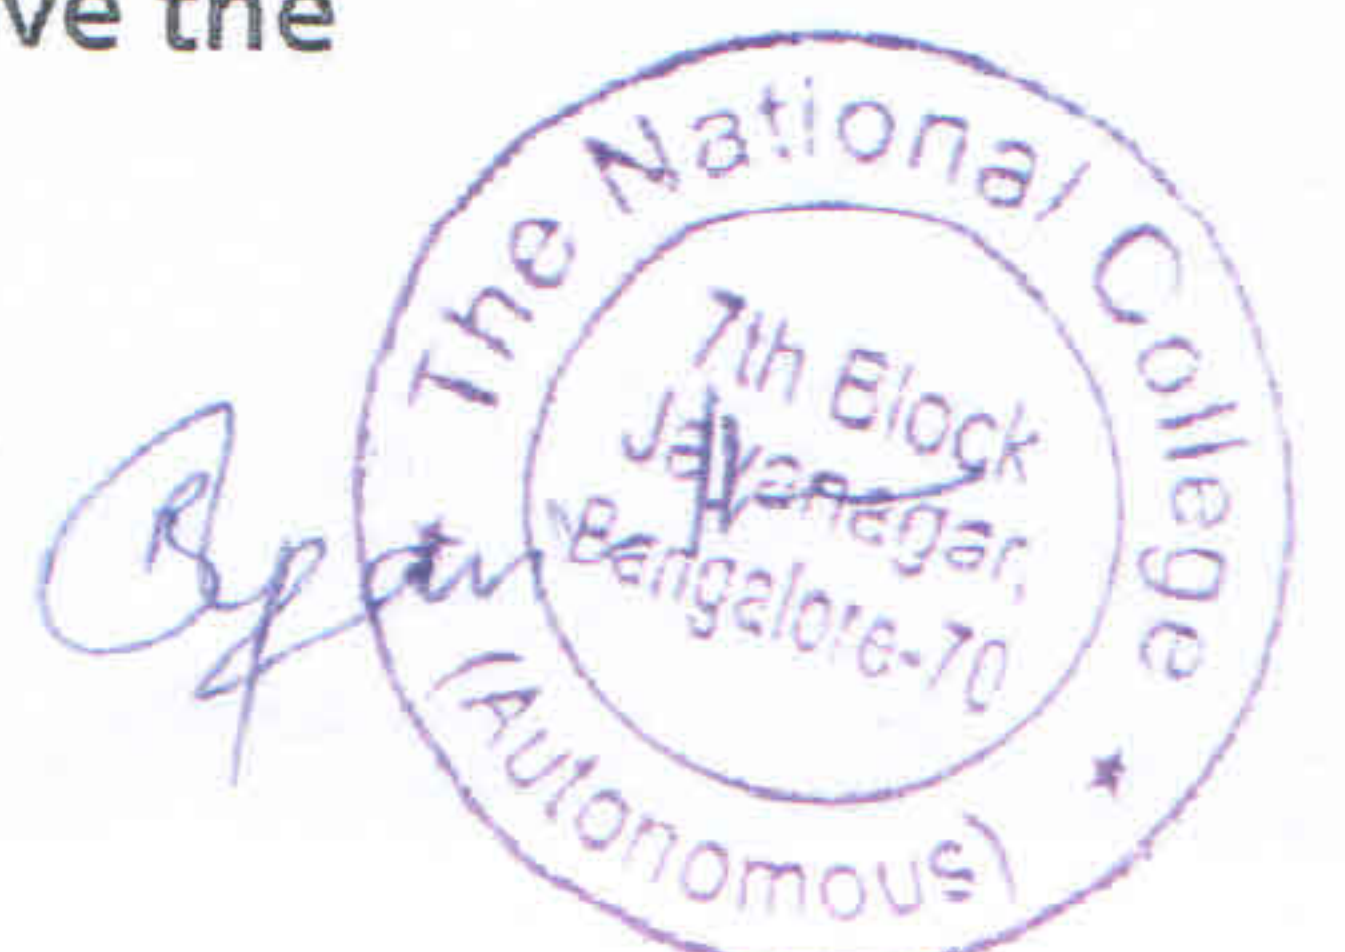

Texas Instruments hopes that once these Innovation centers are in place and running, If Texas Instruments conducts any contest centre will be connected with the same.

Restrictions and Obligations Governing the Use of Confidential Information and Materials

- a) Recipient shall not disclose any Confidential Information/Confidential Material, to third parties without the prior written authorization of the Company. Notwithstanding the foregoing, the Recipient shall not at any time disclose to any third party any Confidential Information/Confidential Material or any Confidential Information of any other party to whom the Company owes an obligation. however, the Recipient may disclose Confidential Information in accordance with judicial or other governmental orders, provided the Recipient shall give the

Similarly NCJ indemnifies ipomo against any loss or liability due to any actions taken in good faith which may arise as a consequence of discharge of its obligations towards this agreement.

5. Confidentiality:

5.1 ipomo and NCJ shall each exercise due diligence to maintain in confidence and not disclose to any third party any proprietary information furnished by the other to it on a confidential basis and identified as such when furnished. Except in accordance with this Agreement, neither party shall use such information without permission of the party that furnished it. As used in this paragraph, "due diligence" means the same precaution and standard of care which that party uses to safeguard its own proprietary data, but in no event less than reasonable care.

5.2 This Agreement does not grant any license under any patents or other intellectual property rights owned or controlled by or licensed to ipomo. NCJ shall not have any right to manufacture, reengineer, and reverse engineer products by ipomo.

6. General:

6.1 Uptime Guarantee – Availability of the Application and Service – 99% uptime

6.2 At any given time, ten teachers can simultaneously login into the application

6.3 In case NCJ decides to withdraw from the contract or does not renew, Ipomo will provide the data to the college in a suitable format. Disc has to be provided by NCJ.

7. Duration of the Contract: This agreement shall be valid for the Academic Year 2019 – 2020, 2020–2021 and 2021 – 2022 initially and shall be further renewed for a period agreeable by both the parties. Both the parties shall be at liberty to terminate the agreement by giving to the other notice of THREE months. It shall not be necessary to assign any reasons thereof.

8. Force Majeure: If a force majeure situation arises either party shall inform the other in writing of such conditions, the cause there of and likely duration of the delay.

9. Arbitration: Should any dispute arise between the two parties, the matter shall be resolved by arbitration under the provisions of Arbitration and Conciliation Act, 1996 and the venue of Arbitration to be Bangalore.

10. Any litigation arising of this agreement will be subject to the exclusive jurisdiction of Bangalore.

MEMORANDUM OF UNDERSTANDING

This memorandum of understanding (MoU) is made on this day of 25th March 2023, by and between UG and PG Department of Physics of KLE Society's S.Nijalingappa College, 2nd Block, Rajajinagar, Bengaluru – 560010, and The National College, Department Post graduation studies and research in Physics, Jayanagar, Bengaluru, 560070, with the quality objective of imparting quality education to undergraduate and postgraduate students. Both institutions agree to work jointly towards industrial training, project work, research work for students. Faculty and students exchange for the benefit of a stakeholders of both the colleges.

Now, both the parties wish to enter this MoU in order to customize their roles and other terms & conditions in writing as hereunder set forth and therefore agrees as under:

- Both institutions agree to support their students from UG and PG to undergo Internships, Research projects, Hands-on training, workshops, classroom teaching.
- The duration of the project/ internship will be finalized upon discussion by both parties.
- The students will undergo a training session of Do's and Don'ts in the laboratory from both the parties.

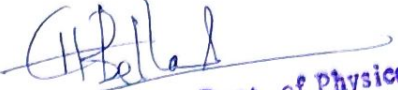

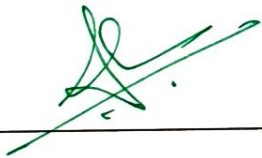

- Both the institutions will extend the infrastructure facility and required guidance for the students to work on their research projects/classroom teachings.
- The research design for each student project will be pre-decided by both parties.
- This MoU will take effect from the date it is signed by representatives of the parties. It will remain valid for 3 years and may be continued thereafter with suitable review and agreement.

Either party may terminate the MoU by giving Notice to the other party 3 months in advance. However, both the, UG and PG Department of Physics will ensure that all activities in progress are allowed to be completed successfully.

Dispute Resolution

- In the event of disputes, controversies, differences of opinion, and claims arising out of or in connection with this MoU, in any way relating here to or any term, condition.
- or provision here is mentioned or the research or otherwise related, the parties shall first endeavour to settle such differences, disputes, claims or questions by friendly consultation and failing such settlement, the same shall be referred by Principal, The National College, Jayanagar and Principal, KLE Society's S.Nijalingappa College, Rajajinagar, Bengaluru.
- Unresolved disputes will find an arbitrator with the willingness of both parties and such arbitration shall be held in accordance with the arbitration conciliation act 1996 or any statutory modification or re-enactment there if for the time being in force & be held in Bengaluru.
 - The parties to the proceeding of arbitration shall bear their own cost. There is no any financial implications between both the parties.

ದಿನಾಂಕ 21-03-2023

The MoU will enable the parties to:

STUDENT EXCHANGE PROGRAMME OR FACULTY EXCHANGE PROGRAMME for B.Com or BBA Program – UG in collaboration between two parties. It SET the ground for longer term institutions partnership by giving knowledge, exposure of industry and research activities.

The parties hereby agree to establish collaboration to terms and conditions set out time to time.

This MoU may also involve parties by mutual consent and it shall become effective upon signature by the authorized officials from THE NATIONAL COLLEGE, Autonomous, and JANATHA FIRST GRADE COLLEGE and will remain in effect until modified or terminated by any one of the parties by Mutual consent.

This Memorandum of Understanding (MoU) is effective as of **21st March 2023**.

The aforesaid institutions are hereinafter referred to individually as *institute* and collectively as *institutes*.

Preamble

WHEREAS, The National College, Jayanagar and Janatha First Grade College have many areas of common interest in Commerce and Management, considerable advantage may be gained from their pursuit on a collaborative basis in the fields of academics, education and research.

NOW THEREFORE, The NCJ and JGGC have decided to enter into this Memorandum of Understanding, which defines the framework for the cooperation of the two institutions set out in the following sections.

ARTICLE 1: OBJECT

Both Institutes agree to develop the following collaborative activities in the academic areas of mutual interest, on a basis of equality and reciprocity.

The two institutions shall seek to promote:

a. Faculty/Staff Exchanges

(i) The exchange of faculty to the mutual benefit of both institutions,

(ii) Collaboration in teaching, research and development, and consultancy studies in the field of mutual interest.

- (iii) The exchange of academic materials and publications,
- (iv) Conducting lectures,
- (v) Undertaking joint research,
- (vi) Attachment of staff for purposes of curriculum development and review, attendance of courses, upgrading of teaching and research skills.
- (vii) Participating in seminars, symposiums, and other types of academic discussions,
- (viii) Conducting study tours and joint consultancy work.

ARTICLE 2: COORDINATION

Each institution shall appoint one member of its teaching faculty to coordinate the programme on its behalf. Further, a coordination committee consisting of a programme coordinator from the side of NCJ, and a programme coordinator from the side of JFGC, will periodically review and identify ways to strengthen cooperation between the two institutions.

ARTICLE 3: CONFIDENTIAL INFORMATION

NCJ does not absolve any confidential information during the activity.

ARTICLE 4: TERMINATION

Either institution may terminate the MoU by giving written notice of six months in advance to the other institution.

ARTICLE 5: AMENDMENTS/MODIFICATIONS

This MoU may be amended or modified by a written agreement signed by the representatives of both institutes.

ARTICLE 6: ADHERENCE TO LAWS

Participating faculties, staff and students involved in any activities under this Memorandum must adhere to the rules and regulations of the institutions.

This MoU may also involve parties by mutual consent and it shall become effective upon signature by the authorized officials from THE NATIONAL COLLEGE, Autonomous, and JANATHA FIRST GRADE COLLEGE and will remain in effect until modified or terminated by any one of the parties by Mutual consent.

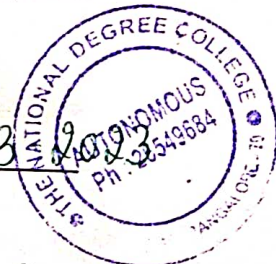

This agreement shall be signed by THE NATIONAL COLLEGE, Autonomous, and JANATHA FIRST GRADE COLLEGE and shall be effective as of the date first written above.

MEMORANDUM OF UNDERSTANDING

Date 05-04-2023

This Memorandum of Understanding (hereinafter called as the 'MOU') is entered into on this the 5th April 2023 by and between:

THE NATIONAL COLLEGE, AUTONOMOUS, JAYANAGAR, BANGALORE

AND

SYON CHIT FUND PVT. LTD., JAYANAGAR, BANGALORE

PURPOSE OF MOU

In particular, this MOU is intended to

1. Enhance entrepreneurial mindsets among the students.
2. Organize various workshops on Investing Ideas.
3. Conduct practical trainings on Entrepreneurship Development
4. Generate self-employment opportunities
5. Assist the students in establishing various start-ups
6. Arrange the placement of trained students

NOW THEREFORE, IN CONSIDERATION OF THE MUTUAL PROMISES SET FORTH IN THIS MOU, THE PARTIES HERETO AGREE AS FOLLOWS:

Clause 1 CO-OPERATION

1.1 Both parties are united by common interests and objectives, and they shall establish channels of communication and co-operation that will promote and advance their respective operations. The parties shall keep each other informed of potential opportunities and share all information that may be relevant to secure additional opportunities for one another.

1.2 The co-operation between First Party and Second Party will facilitate effective utilization of the intellectual capabilities of the Second Party providing significant inputs to them in developing suitable teaching/ training systems, keeping in mind the needs of the First Party

P.T.O

Clause 2 SCOPE OF THE MOU

2.1 Both parties believe that close co-operation between the two would be a major benefit to the student community to enhance their skills and knowledge.

2.2 The Second Party will give valuable inputs to the First Party in teaching/ training methodology so that the students fit into the career scenario meaningfully.

2.3 The interaction between Chit Fund and the College will give an insight into the latest developments /requirements of the current scenario; the Second Party to permit the Faculty and Students of the First Party to visit its group companies and also involve in Industrial Training Programs for the First Party. The industrial training and exposure provided to students through this association will build confidence and prepare the students to have a smooth transition from academic to working career.

2.4 The Second Party will train the students of the First Party on the emerging technologies in order to bridge the gap in skill and make them ready for companies.

2.5 The Second Party will extend the necessary support to deliver guest lecturers to the students of the First Party on the technology trends and in house requirements.

2.6 The Second Party will actively engage to help the delivery of the training and placement of students of the First Party into internships/jobs.

Clause 3 VALIDITY

3.1 The validity of the agreement is one year from the date of agreement.

3.2 Both Parties may terminate this MOU upon 30 calendar days notice in writing. In the event of Termination, both parties have to discharge their obligations.
