# MOU Activity with RV engineering college

## A Special Lecture on “Research Methodology”

By Dr. Deepa H R, Department of Physics, RV Engineering College,  
Bengaluru.

Dated: 30/12/2023, time 11:00AM to 1:00PM

A special lecture on Research Methodology was organized by Department of Physics, The National College, Jayanagar, Bengaluru, in collaboration with Department of Physics, R V Engineering College, Mysore road, Bengaluru. The program was started with the invocation song by our students and Prof. K T Vasudevan welcomed all the dignitaries to the dais and welcomed all the faculties and participants, and introduced the chief guest to the audience. It is an interesting to know about implementation of principles in research methodology towards future research. Importance of ethics in research were introduced to students. The workshop was mainly organized to the students and faculties to understand research methodology total 52 participants were the beneficiaries of the program. Prof. P Nagaraju concluded the program with the vote of thanks.

# A Workshop on “Heat pipes and Heat Exchangers”

A workshop of Industrial Thermodynamic application

**DEPARTMENT OF PG STUDIES & RESEARCH IN PHYSICS**

**THE NATIONAL COLLEGE, JAYANAGAR**

In Collaboration With

**Department of UG & PG Physics**

**K.L.E. Society's S. Nijalingappa College**

The programme is sponsored by the Management of National Education Society, Karnataka.

100 Years of Quality Education

A Workshop on

## “Heat pipes and Heat Exchangers”

A workshop of Industrial Thermodynamic application

**Speaker**  
**Mr. S. R. Bhat**

**Venue**  
**B. V. Jagadeesh Science Centre**  
**The National College, Jayanagar Campus**

**Date : 26/06/2023 (Monday)**  
**Time : 2:00 PM to 4:00 PM.**

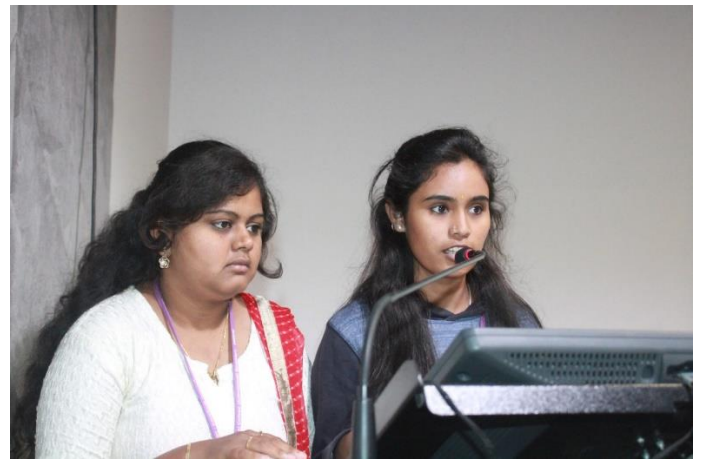

**DEPARTMENT OF PG STUDIES & RESEARCH IN PHYSICS**

**THE NATIONAL COLLEGE, JAYANAGAR**

The Department of Physics, established in the year 1965, has been instrumental in developing pupils' mind-sets into various streams viz., science, arts, sports, and politics. The P.G. department was started on 26<sup>th</sup> September 2012. The department has been growing rapidly with the excellent reputation of National College and currently Bangalore University has conferred Research Centre for the department. Very committed students are joining the department in large numbers. The department was headed by Prof. Pundareeka Bhatta since inception and it was taken over by eminent scientist Prof. B. S. Seshadri in 2013, earlier a scientist at BARC and IGCAR, Kalpakkam and also retired as Science Dean at Kuvempu University. Currently the Department of P.G. Studies & Research in Physics is headed by Prof. K. T. Vasudevan, who previously worked in University of Western Sidney, Australia. The Department of Post Graduate Studies and Research in Physics consists of very young, talented band of teaching staff highly motivated to train the students of M.Sc. (Physics). The physics department has very well-equipped laboratories with advanced research activities in Nuclear Physics, Material Science and Non-linear Optics. A very conducive environment for physics learning is being established. A large number of seminars, special lectures by eminent scientists and participation in conferences are pursued. M.Sc. Students participating in conferences and presenting contributory research papers is a unique feature of this department. The physics department aspires to be one of the distinguished centres for excellence in physics learning and research. Department has Research Collaboration with Florida International University, Miami, USA.

A workshop on Heat pipes and heat exchanges was organized by Department of Physics, The National College, Jayanagar, Bengaluru, in collaboration with Department of Physics, K.L.E. Society's S. Nijalingappa College, Rajajinagar, Bengaluru. The program was started with the invocation song by our students and Prof. K T Vasudevan welcomed all the dignitaries to the dais and welcomed all the faculties and participants, and introduced the chief guest to the audience. It is an interesting industrial application of thermodynamics and it finds applications in space ships and other places. There was a practical demonstration of this concept. The workshop was mainly organized to the students and faculties to understand in a practical way it made the subject interesting and gain knowledge on the thermodynamic behaviour in heat pipes and also to know the mechanism in between heat pipes and normal metals. Prof. P Nagaraju concluded the program with the vote of thanks.

Jayanagar, Bangalore

Department of Economics

Report on Guest lecture

Department of Economics of the National College, Jayanagar had organized a Guest lecture on “*Impact of Freebies on the Economy*” on 12<sup>th</sup> January 2024 (11.00 AM) in collaboration with Genius Kidz Learning Private (Ltd) at H.N Multimedia Hall.

**Dr. Suresha B**, Principal introduced the guest speaker and delivered welcome speech.

**Prof. Pushpa N**, Head, Department of Economics and Commerce, Jain College, V V Puram, Benagaluru was the resource person. She delivered a lecture giving insights on the freebies and its impact on the economy by illustrating real world examples.

More than 120 students attended the lecture and the platform was open for question-and-answer session at the end. The guest effortlessly answered all the queries, hence the agenda of the whole lecture to reach out to the students on this topic was effectively accomplished.

**Dr. Nagachampa Jain**, Head of the Department of Economics hosted the programme and Prof. Lalitha K proposed vote of thanks.
